The West Course requires unusual shotmaking, along with blind shots and play over stone dykes. Features the par 3, 15th 'Redan' which is probably the most frequently copied short hole in the world. Today play **Carnoustie (tbc)**. With its thick rough and devilish bunkers, Carnoustie is known as one of the world's most challenging links courses and considered by many to be the most challenging of all Open venues. While the links is relatively flat it is exposed to the elements, a combination of length and accuracy are required from the tee to avoid the clever placement of the fairway bunkers and approach shots demand precision to greens heavily guarded by steep bunkers and burns. Arguably the toughest and most memorable finishing holes in championship golf. A state of the art clubhouse facility was completed in time for the 2018 Open Championship, containing seven Foresight simulators and the excellent Rookery Restaurant with panoramic views of the golf courses and the sea.

Today play **Kingsbarns (tbc)**. Its historical origins date back to 1793. Its sandy, linksland soils are the basis for

this heritage, and produce the fine-bladed fescues which are the cornerstone of fast-and-firm playing surfaces that characterise links golf. Designed by Kyle Phillips and opened anew in 2000, its rebirth has been shared with golfers from near and far with outstanding reviews. The links features spacious rolling fairways, large greens, and exceptional sea views on every hole. A challenging yet enjoyable champion-standard traditional Scottish links course.
